

RTSWS continues to support our alumnae long after they've completed high school. **We are a resource for them through their college years and beyond.** Our students focus on their financial careers for one reason; because now they are aware of them. Not only is RTSWS providing the knowledge and skills to unlock girls' investor identities, **we provide access to industry people, event, internships and jobs.**

Sponsors can access a growing pool of students through the Alumnae and Career Center to:

- Schedule company recruiting information sessions and job fairs
- Post internship and entry-level job opportunities
- Find racially and economically diverse candidates
- Connect with candidates who have received finance pre-requisites through the RTSWS Program
- Continue supporting the growth and development of alumnae who have completed the RTSWS Program and are in college or the early stages of their careers.
